Section 2: Legal Entity Contact Details	10

# Thermo Fisher Scientific Legal Entity Reference Guide

## Introduction

The Thermo Fisher Scientific Legal Entity Reference Guide is a map to the legal entities within Thermo Fisher. It presents two views of our company information:

- 1- A cross reference of former brands and product lines
- 2- Business details including:
  - a. Ordering Information
  - b. Check & Electronic Payment Information
  - c. Tax Numbers (EIN and VAT) & Other Identifiers (SWIFT, IBAN, DUNS, etc...)

This guide is best used to assist you in identifying the correct legal entity to answer questions about Thermo Fisher products or services. It may also be used to assist you in updating the contact information in your procurement system.

This guide is not an all inclusive list of all Thermo Fisher products or legal entities. If the information that you are looking for is not listed in this guide, call any Thermo Fisher Scientific call center for assistance.

## How to use this guide

NOTE: This document is best suited to electronic use in order to take advantage of Adobe® Acrobat's "Search" capability.

If you need to identify which part of Thermo Fisher to contact, but you only have a former brand name, perform a search on that brand to find the associated legal entity name. The results will bring you to section 1. To the left of the legal entity name, in section 1, is a reference number. Once you identify the reference number, go to section 2 to retrieve the contact information for that legal entity.

If you are unsure of the legal entity name and you don't have a former brand, go to section 1. Section 1 also lists the product lines which are associated to the Thermo Fisher legal entity names. Once you have identified the product type that you are interested in, go to the left of the legal entity name to obtain the reference number. Once you have the reference number, go to section 2 to retrieve the contact information for that legal entity.

If you know the legal entity name and you need the contact information, go straight to section 2. Section 2 lists the Thermo Fisher legal entity names in alphabetical order. The contact details are listed in that section. If you are unable to find the information that you are looking for, contact any call center for assistance.
